NSF

Business Summary:

Founded in 2008, Augustine Plastics, Inc. (API) is a plastic injection / liquid silicone molder offering full-service custom injection molding, product design assistance, prototyping, injection mold design and manufacturing, product assembly, packaging, warehousing, and shipping. API's secondary operations include ultrasonic welding, hot stamping, pad printing, and insert molding. API is ISO 2001:2008 certified and working towards AS9100D certification coming in August 2018.

Core Competencies:

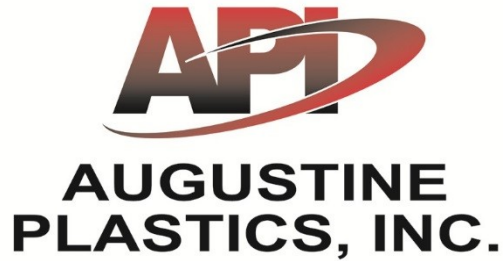

- Process thermoplastics material from commodity resins to advance engineering resins
- Liquid silicon molding capabilities
- Injection molding machines vary in size from 55-ton 3.7 oz shot size to 880-ton 125 oz shot size
- Product design assistance
- Injection mold design and manufacturing

Differentiators:

- 50+ years combined experience of injection molding
- Located in Central-Western PA near the Turnpike and several other major highways
- 222,000 sq ft facility for warehousing, shipping, and receiving

Sample Past Performance: *(References Available Upon Request)*

- DeVilbiss
- UMF Medical
- API Defense / API Technologies
- Innovate Electronics
- Fibox USA
- Opterna AM

CUSTOM PLASTIC INJECTION MOLDING

- **Materials:**
 - API processes most thermoplastic materials from Commodity Resin such as ABS, PE, PP, and PS to advance Engineering Resins as well as Liquid Silicone Molding (LIM).

- **Machine Sizes:**
 - 55 ton – 3.7 oz (Liquid Silicone Machine)
 - 56 ton – 2.8 oz
 - 75 ton – 3 oz
 - 85 ton – 5 oz
 - 120 ton – 8 oz
 - 170 ton – 8 oz
 - 170 ton – 14 oz
 - 230 ton – 14 oz
 - 242 ton – 13.8 oz
 - 300 ton – 30 oz
 - 500 ton – 80 oz
 - 880 ton – 125 oz

- **Secondary Operations:**
 - Ultrasonic Welding
 - Hot Stamping
 - Insert Molding
 - Pad Printing
 - Assembly

- **Additional Services:**
 - Along with Augustine Die & Mold Inc., API provides part design assistance, prototyping, mold design, mold manufacturing, packaging, and warehousing

- **Current Certifications:**
 - ISO 9001:2008 Quality Management System (Currently working towards AS9100D certification coming in August 2018.)
 - UL
 - NSF
